Skills

JavaScript | TypeScript | Python | SQL | C++ | React.js | HTML5 | CSS3 | Node.js | Express.js | FastAPI | REST APIs | MongoDB | Mongoose | Google Gemini | LLM APIs | Prompt Engineering | claude | Huggingface | Chatgpt | Git | GitHub | Postman | JWT Authentication | MVC Architecture | CRUD | API Integration | Webhooks

Projects

AI Property Management Agent

Tech Stack: React.js, TypeScript, Node.js, Express.js, MongoDB, Mongoose, JWT, Gemini AI, Razorpay, Cloudinary

- Built a role-based property management platform supporting Admin, Manager, Tenant, and Technician workflows.
- Developed REST APIs for property management, tenant stay requests, maintenance scheduling, technician assignment, and maintenance status tracking.
- Integrated Google Gemini AI to provide AI-assisted property insights and management support.
- Implemented Razorpay subscription payments and webhook handling for manager subscription workflows.
- Integrated Cloudinary for property image uploads and MongoDB for persistent data storage.
- Deployed the backend on Render and maintained the project using Git and GitHub.

AI-Powered E-Commerce Application

Demo !—

Tech Stack: React.js, Node.js, JavaScript, Express.js, MongoDB, JWT, Gemini AI

- Developed a full-stack e-commerce application with user authentication.
- Implemented product filtering, sorting, pagination, cart, and order features.
- Built an admin dashboard for product management.
- Developed REST APIs and integrated MongoDB for persistent data storage.
- Integrated AI functionality using the Google Gemini API.

Education

Bachelor of Computer Applications (BCA) 08/2023 - 04/2026

MES College of Arts and Science
